

*„To gain knowledge means investing in the future.“*

The **Piarist Order** is a Catholic tutoring, educating religious order, being present in Hungary for over 350 years. We operate nurseries, primary and high schools, educating centres, dormitories, colleges in order to provide a possibility of the youth to fully unfold in their personal well-being. More than 4500 students and almost 750 employees form part of our Institutions. The mission of our order is to evangelise via education. Our management is implemented through the values of the gospel. It is our fundamental principle that in the economical and administrative decision-making process both ethics and justice must form priority over all other criterion. In every economical matter, solidarity is taken as the basic principle, solidarity within the Institution and outside of it (manifesting itself towards those outlawed from the society).

In the process of our investment selection we handle social and environmental social impact as equivalent aims working hand-in-hand with the financial results.
